

# THE Cover-All® Pinnacle™ Building

## Simplified Building Design

Cover-All's innovative approach has resulted in a simplified building design and construction method providing the strength and security you need with the performance you demand. The straight wall Pinnacle™ building design easily connects to or fits in between existing buildings.

## Adaptable & Flexible

The Cover-All® Pinnacle™ Building Series 4 is available in widths from 110 to 130 feet, and to any length required. As your business grows, your Cover-All® Pinnacle™ can grow with you by adding additional length to the building. Flexible door placements are available to accommodate your business work flow.

## Controlled Environment

Cover-All® buildings provide unparalleled ambiance, exceptional sound dampening properties and superior air quality. The vast amount of natural lighting inside illuminates every corner of the building providing a healthier environment for animals and a safer environment for those working around equipment, while lowering operating costs.

## Pinnacle™ Building Series 4 (PBS) Application Examples:

### Equestrian Solutions – 365 Days to Ride

- The Cover-All® Pinnacle™ building offers an unparalleled riding and stabling environment, with the same great Cover-All® benefits including natural light and a quiet, peaceful ambiance.
- The straight wall design allows you to easily add interior walls, fencing and viewing areas.
- Access from the ends or sides for trailers, horses and riders can easily be accommodated.
- The addition of side curtains will provide cross ventilation and eaves can be added for snow and rain control.

### Warehousing and Manufacturing Solutions – The Ultimate Clear-Span Facility

- Cover-All's Pinnacle™ buildings' straight wall design allows for the addition of steel siding, concrete block, or wood exterior to both increase security and meet building code and fire rating requirements for commercial and industrial applications.
- Overhead and personnel access doors can be installed on any side of the building as required by your traffic pattern.

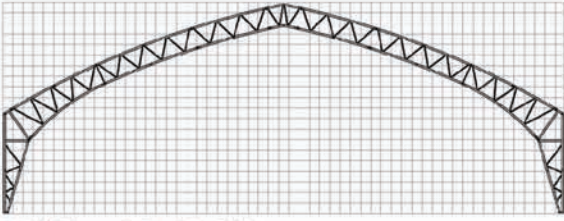

### Dairy Solutions - Better For Your Cows, Better For Your Business

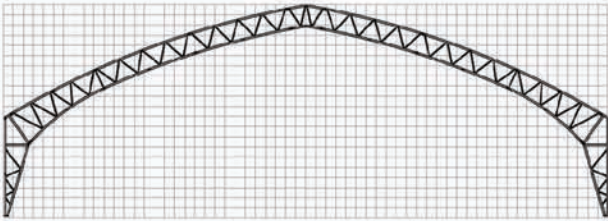

- The Cover-All® Pinnacle™ dairy barn improves cow comfort and health by reducing environmental stress and increasing the amount of natural light, to make your dairy business more profitable.
- The Pinnacle™ is designed specifically to accommodate the space requirements of a 6-row dairy freestall barn.
- Options including eaves and side curtains complete the Cover-All® dairy solution, adding increased ventilation and snow and rain control.
- Dairy end walls are flexible to accommodate feed and scrape alleys.
